Subject: Request for comments and schedule update

Willamette Basin MDV Advisory Committee Members:

I am e-mailing with a request and an update:

1. First, as discussed at the end of last meeting, if you have any feedback on the topics raised at the last meeting, please e-mail them to the entire group by Monday, February 11. This includes any comments on our proposed approach on the Highest Attainable Condition for municipalities, the variance term and suggested changes to the variance rule language.
2. We would like to postpone the meeting scheduled for February 27 until sometime in March. This will give DEQ staff extra time to prepare so that we can have a full-day meeting covering more topics. In particular, we would like to give more detail about how the variance process will work, from application to re-evaluation. I will send a Doodle poll out by the middle of next week so that we can nail down a date.

Thanks, and please let me know if you have any questions.

Sincerely,

Aron Borok
